

MUST HAVE BLADES

A pair of MK brand pliers is shown in the process of cutting through a large, translucent block of ice. The pliers are positioned diagonally, with the jaws firmly gripping the ice. The ice block is the central focus, showing a clean cut being made. The background is a solid, light blue color, providing a high-contrast backdrop for the scene. The pliers have a silver-colored metal body and a black handle with a textured grip. The ice is clear and shows some internal crystalline structures. The overall composition is clean and professional, emphasizing the precision and strength of the MK brand.

THE CHOICE OF CHAMPIONS

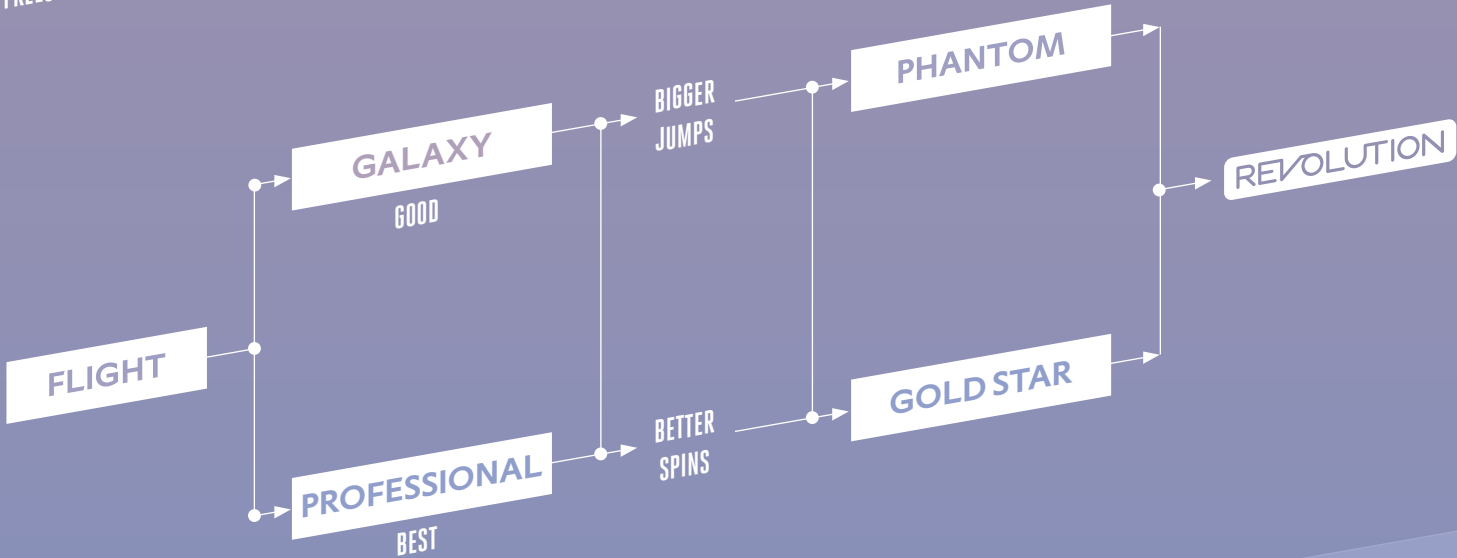

MK is all about performance. Yours and ours.

The finest steel is selected, then laser cut for supreme accuracy (within 0.004 inches). Just like your programs, our blades have to be precision perfect. A meticulous 55-step process is then undertaken to ensure a robust, flexible, and competitive blade that's made to go the distance.

And finally, our master craftsmen apply their expertise for the ultimate finish.

DYNASTY

FLIGHT

FIRST CLASS FOR BEGINNERS.

The MK Flight was released in 2015 to meet the specific needs of the entry level skater. As skaters' needs developed and changed over the years, the team at MK set out to create a blade that satisfied the elementary market. Unlike our beginner blades of the past, the Flight's profile has been flattened to perfectly suit boot/blade combination sets.

RECREATIONAL AND SINGLE JUMPS

GALAXY

NO LIMITS TO YOUR PROGRESSION.

The latest offering in the MK product range, the new MK Galaxy features an unmatched chrome finish and cross-cut teeth. While skaters leave their boot/blade combination sets for the first time, the Galaxy is an option which provides optimum bite for those learning their toe jumps. It has been expertly designed to accommodate all basic skills required of the beginner freestyle and synchronized skater.

SKILL LEVEL

SINGLE JUMPS

PROFESSIONAL

BEST
SELLER

DOES THE JOB AND MORE.

The MK Professional is widely acclaimed for its balance, performance and style. A parallel sided blade, the Professional is the premier choice of coaches around the world for their experienced freestyle students who are working on their axel up to the double lutz jump. The elongated 7 ft rocker profile has minimal blade contact with the ice while performing spins, allowing you to create less friction for a faster and longer spin.

PHANTOM

HAUNTS THE COMPETITION.

The performance advantages of the MK Phantom cannot be overstated for the advanced freestyle skater. A legendary option, the Phantom is side honed, tapered and specifically designed for triple and quadruple jumps. Taking information from world-class skaters, the MK engineers were advised to build this blade with a smaller 7 ft radius section to allow for deeper edges and easier turns. Designed for the explosive jumper, the crosshatched teeth enable jumpers to secure the ice deeply and an enlarged top toe pick is sure to aid in toe spotting.

Designed and crafted in the UK. Exported to the
4 corners of the earth for global domination.

GOLD STAR

THE UNDISPUTED KING OF SPIN.

The choice of numerous World and Olympic Champions, this superb blade epitomizes MK's craftsmanship. The MK Gold Star is side honed and tapered which provides more defined edges and increased angle for tighter turns. Due to the complexity of its secondary radius, the Gold Star has more of a heel lift than most freestyle blades which also aids in spin technique. If you're an advanced freestyle skater performing triple or quadruple jumps who's seeking a blade which will enhance spins, the Gold Star is our recommendation.

PARABOLIC

The unique curvature of a Parabolic blade enables it to bite deeper into the ice. This means smoother, sharper and more energetic spins, turns and edge work no matter what level you're skating at. And, as your weight is centered due to precision geometry, you have increased levels of control and confidence to maximize your true potential.

TRADITIONAL BLADE

PARABOLIC BLADE

DANCE

CHAMPION TWIZZLE MACHINE.

When it comes to dance blades, look no further than the podiums to make an educated decision. At Pyeongchang 2018, 85% of all Olympic Ice Dance athletes used the MK Dance for its slimline design, allowing the skater to move from one edge to the other much quicker. Essentially, the unique configuration of this blade allows skaters the advantage of employing less body lean to change their edges. It is because of this that the Dance is also worn by the world's elite synchronized skating teams. This is the choice of champions.

DYNASTY

SYNC TO NEW HEIGHTS.

Designed in conjunction with 25x U.S. Champion Haydenettes, this blade enhances performance to keep pace with the ever-growing demands of the sport. The MK Dynasty features: Increased stanchion height – because boot clearance equals deeper edges. Hybrid heel length – that finds middle ground between dancer foot placement and freestyle dynamics. Legendary pick configuration – for a confident anchor when you place the toe. Elegantly redesigned stanchions – enhance the pointed toe aesthetic.

The Dynasty will perform as the best synchronized blade on the market and is versatile enough to be used in everyday individual training as well.

FOR

TOTAL PERFORMANCE

APPLY REVOLUTION TECHNOLOGY TO
OUR PRECISION BLADES

REVOLUTION

Revolution is the pinnacle in blade technology, combining the traditional merits of a steel blade alongside the benefits of weight reduction and flexibility through the use of carbon fibre.

The results are unparalleled. The fusion of old and new technology allows skaters to move across the ice at increased speeds, make higher jumps, and cushion-land them, with greater control to reduce the risk of injury.
